### PERSONAL HUMIDIFIER

Keeping your surrounding area comfortable during dry season. Should help for dry eyes, dry mouth, dry nose, dry skin, and so on.

#### Product Concept:

The Personal Humidifier is a high efficiency residential humidifier, it uses high frequency ultrasonic waves to convert water into particles and spread them into the air. The Personal Humidifier is the ideal solution for dryness in the eyes, mouth, nose, and skin, and is perfect for use in small spaces. This Personal Humidifier is smart, portable and easy to carry, and provides a comfortable surrounding any time, any place.

#### Product Application:

- Office or computer room
- Automobile
- Bedroom

#### Product Feature:

1. Convenience - this unit can be powered with USB for PC, DC for AUTOMOBILE and AC adaptor for INDOOR according to personal need.
2. Antibacterial water purifying filter.
3. Blue LED power indicator.
4. A color indicator shows blue or pink as dryness reference to switch the unit on when necessary.
5. Low Power consumption and energy saving. ( use only 3 watt. )
6. Keep safe and valuable cool mist humidifying technology.
7. Moisturize your personal space during dry condition.
8. Built-in negative ion function for improving air quality.
9. The unit can be used as an aroma dispenser when putting few drops of diluted essential oil. The essential oil must be water soluble and dropped in the water filled tank.

#### Specification:

Material : ABS  
Weight : 205g  
Water Volume : 140ml  
Voltage : DC12V/ 3W  
USB- Powered [ for PC ]  
DC - Powered [ for AUTOMOBILE ]  
AC - Powered [ for INDOOR ]

# Mini Portable humidifier

REVOLUTIONARY INNOVATION

**GW**  
Green & White®

The GW mini portable humidifier offers the most remarkable and stable humidification efficiency base on the patented mechanism, the unique design not only extends the product life, but also enhances the durability. Moreover, the compact shape provides the most convenient usage for you.

Enjoy proper balance of humidity at any time.....

## Patented Replaceable Ultrasonic Atomizer

The patented unique design can completely solve the common problem of a short product life caused by aroma oil or the other impurities in water that can easily block the mini ultrasonic atomizer. If the atomizer has been blocked, simply take off the lid with a coin and replace the atomizer, the humidifier will function smoothly as a new one.

HU-150-F

## Convenient Usage

## Specification

Material : ABS / AS  
Dimension : d : 53mmΦ x h : 102mm  
Mist Output : 30ml / Hr. ~ 40ml / Hr.  
Power : DC 5V , 2W (USB, DC/AC adapter)

## Features

- Mini-type design for easy use and is workable with any container that can be filled up with clean water. Put the G&W humidifier into a container that is full of water and power it on for instant humidification.
- Generate plentiful anion to improve air quality and reduce radiation.
- Moisturize and sooth skin in dry surroundings.
- Noiseless and energy saving (use only 2W).
