

Multifunctional Pill Organizer

Portable Organizer, 8 Compartments

Right Medications

Right Dose

Right Time

The PD-08 Multifunctional Pill Organizer is designed to meet the demands of users who need to take daily medicines, vitamins and health supplements. The user-friendly alarm buzzer reminds users to take medicines on set time, to avoid cases of wrong dosages being taken or forget taking pills due to busy schedules without proper help to keep to a medication plan.

Features

Portable Large Capacity Pill Organizer

Accommodates up to 8 portions of medication.

Alarm Buzzer

The alarm makes loud and clear sound with LED displayed to remind user the time for taking medicines.

LED Indication

Blinking LED lights indicating the right pill compartment in which the medication should be taken.

Easy Set-up

8 alarms per day can be set up with simply one programming button.

Portable

Compact size and ergonomic grip for carrying around to ensure that medication or vitamins are taken timely when out on a trip.

Braille Identification

User-friendly Braille identification on each compartment lid.

PD-08 Portable Pill Organizer

Specification

Size : L103×W54×H38mm

Materials : PP, ABS

Capacity : 8 Pill Compartments

Weight : 65g

Power : Button Cell Battery (CR2032 3V) × 1

Product concept

The purpose of the design is to combine two items, the baby wipe and the baby bottle, that is frequently needed for baby care. It uses temperature control technology to combine the warming device of the two items and turn it into an energy and space saving product.

Product usage

1. To warm cold baby wipe or wet tissue until it is the same temperature as a baby. This prevents uncomfortable feeling for babies when used on their sensitive skin.
2. To keep the baby bottle at the best temperature for the baby any time when the baby needs to drink milk.

Product feature

1. **Double function:** Has the function of baby bottle warmer and baby wipe warmer; the function can be used simultaneously or it can be used alone.
2. **Temperature control:** It uses PTC thermistor as its heating component that keeps the product at a comfortable temperature of 38°C to 42°C for the baby.
3. **Easy replenishment:** Any baby wipe re-filling pack from the market and baby bottle of any size can be applied.
4. **Ingenuity:** Drawer like design that allows space saving when the milk bottle warmer is not used.
5. **Electricity saving:** Due to the use of PTC thermistor, the life span of the product increases and the electricity consumption is small. It is able to accommodate long time continuous usage without failing.

Operational instruction

Place any baby wipe re-filling pack or baby bottle of any size into the warmer simultaneously or alone, insert the plug (power light illuminates) and allow it to warm up.

Spec

Current: ac 100V~240V, 50/60Hz
Power: 8 Watt
Material: ABS plastic
Heating method: PTC Heating Thermistor
Dimension: L24.5cm xW14cm xH10.5cm

Model No : W-22

BABY BOTTLE & BABY WIPE WARMER

2 IN 1 double function design to satisfy your baby.

Germfree Toothbrush Case

According to experiment report,
**the germs that grow on a wet toothbrush
after 24 hours is 20 times the germs on the toilet.**

Product Concept:

Drytech's Civi-Health Germfree Toothbrush Case uses dehumidifying technology that removes 100% of one of the living condition for harmful bacteria, the humidity, out of the Civi-Health Germfree Case. By doing this, the harmful bacteria lose its viability to survive; hence harmful bacteria will no longer be able to stay on the toothbrush.

Features:

1. This product does not contain consumable material.
The life span is long with quality assurance of two years.
2. This product is economical in terms of electricity due to the design.
3. This product uses dehumidifying technology to control germ growth for 100% hygienic effect.
4. This product guard against the deficiencies of UV light sterilizing devices; the deficiencies are stated below:
 - The UV light has to reach all the brush surfaces in order to be effective; therefore germs are able to grow on blind spots.
 - If the UV light constantly shines on the human eyes, it could cause cataract.

Product Application:

1. This product provides a germfree environment to prevent germ growth on toothbrush.
2. This product is able to accommodate 6 toothbrushes, 2 toothpaste and several razors.

Operational Instruction:

1. Attach the product onto the wall by using the screws or the double face adhesive sheets.
2. Insert the plug into socket continuously for the power light to remain illuminated.
3. Open the transparent front cover of the product and place the toothbrush on the rack.

Spec:

Current: ac 100V~240V, 50/60 Hz
Power: 5 Watt
Material: ABS Plastic
Dimension: 24.5x11.5x10.5cm

Model No : T-33

THERAPEUTIC PALM MASSAGER

Product Concept

The Palm massager uses concepts from the Chinese Pathology that integrated with the modern neural physiology as its basic design. It combines two spheres with massaging protruding spots by a connecting shaft and connecting ring. It is suitable for both the young and the elderly; with the stimulations to body organs by the nerve reflex area and the acupuncture points, the body metabolism is improved and fatigues are removed. Also, with the increase in immune system, protection from diseases become easily accomplished.

Product Application

Massaging of palm acupuncture points, stimulating the nerve reflex area, effectively improve body metabolism, improve body status and increase immunity.

Product Feature

- ① 2 in 1 multi-directional spheres, suitable for both young and the elderly.
- ② There are 400 massaging protruding spots on the sphere surface that can penetrate into each organ's nerve reflex area that stimulates the acupuncture points and increase the effectiveness of massaging.
- ③ Special magnetic stone and infrared elements. During massaging process, the infrared and magnetic field are discharged and benefits the human body in terms of body electric potential balance and peripheral blood vessel circulation.

Product Usage

The Palm massager is portable, not matter when you are watching TV, in a car or chatting; you simply roll the Palm massager in your palm to effectively massage the acupuncture points and enjoy the healthy effect.

Spec

Sphere material : Plastic sphere, magnetic
stone and zinc compound metal.
Exterior / weight : $\phi 33 \times 66\text{mm} / 83\text{g}$
 $\phi 37 \times 79\text{mm} / 94\text{g}$

Green & White®

Palm Sterilizer

Leave the germs outside, Before enter.....

APPLICATION

- Infant carer.
- Patient Caretaker.
- Medical staff.
- Food product operant
- Catering staff
- Family affiliate

FEATURES

- Liquid automatically spray when palm is placed under the nozzle.
- Using soap or alcohol for cleaning purposes.
- The nozzle can be changed to droplets or sprays.
- It can be applied on table or fixed onto the wall.
- The output quantity can be adjusted; the ranges are between 0.2cc~5cc.

SPECIFICATIONS

- Liquid capacity : 450cc
- Liquid output : 0.2 ~ 5cc
- Power : Dry battery (AA) x 4
- Dimension : 112mm x 103mm x 171mm
- Material : ABS .AS
