Dehumidifier Spec. ADA-320ZA

Size:88x88x148mm
Moisture absorbing material: SiO_2, 320g/PCS
Weight: approx.460g/PCS
Capacity: 100-120ml per use
Outer casing material: PP/ABS
Crystals indicator: Orange = Dry, Green = Wet

Negative ion reactive base spec. AFE-51

Size:83x83x102.5mm
Weight: approx.226g/PCS
Outer casing material: PP
Power: AC 100~240V, 60Hz, 65W
Power indicator: Blue LED light
Timer: 3-hour automatic shut off timer
Negative ion output: one million/cm^3

CE c(UL)us LISTED KC PSE

Air purifier cube Spec.EDH-60ZA

Size: 88x88x91.5mm
Weight: approx.160g/PCS
Outer casing material: PP/ABS
Deodorant: Negative ion beads
+Air purifier has to work with negative ion reactive base AFE-51

HERMIT
Detachable Dehumidifier & Air Purifier

Minimalist · Tranquil · Zen   SFA-320

- Reusable & Eco-friendly
- Moisture Crystals Indicator
- Negative Ion Air Purification
- 3hr — 3-Hour Automatic Shut Off Timer

WORLDWIDE PATENTS PENDING
MADE IN TAIWAN

Applications:

|			
Boats	Drawers	Bookshelf	Closets
Safes	Vehicles	Camera	Cabinets

How to regenerate the dehumidifier?

Place the dehumidifier in small closed areas.

→ Time to regenerate the unit as moisture crystals change from orange to green.

→ Put the unit onto reactive base properly.

Switch on 'Renew' function.

→ Power light indicates blue during regeneration is on. The power shuts off automatically after 3-hour regeneration is done.

→ Moisture crystals change to orange means it's good to go again.
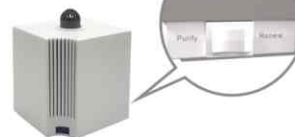

Place the unit back to the places need to be dehumidified.

A compact combination of dehumidifier and air purifier.

The air purifier EDH-60ZA
contains negative ion beads used for deodorant and dehumidification.
By attaching it on negative ion reactive base AFE-51, the efficiency of negative ion would be doubled to clean the air.
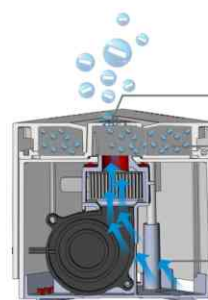

Place the air purifier cube onto negative ion reactive base.

Switch on 'Purify' function.
Power light indicates blue during purification is on.
The power shuts off automatically after 3-hour purification is done.

- Negative ions purification
- Negative ion beads
- Circular air intake
