CTAGON Mini Peltier Dehumidifier

One-touch operating, simple and stylish

Smart LED indicator with auto power-off function

Functional light switch with dim night-mode

Optional wall mount for space saving

WORLDWIDE
PATENTS PENDING
MADE IN TAIWAN

Applications:

Kitchen

Bathroom

Living room

Bedroom

Garage

Features:

- Smart LED indicator shows the status of water tank
Smart indicator light embedded for water tank lights up blue under normal operation. When the water tank is full, the light would turn red and the unit would be switched off automatically.

Water tank lights up blue in dehumidification.

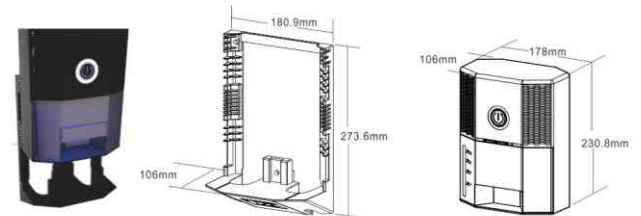

Water tank light turns to red and unit auto shut-off.

- Functional dim night-mode switch

- Optional Wall mounted available for space saving
The compact unit is easy-carrying from room to room but the wall amount attached with it offers a way to save space.

- Optional continuous drain
150cm drainage tube comes with the wall mount. Connect the tube to the unit and a drain for continuous use without the need to empty the tank.
